

# What is foster care like for expectant and parenting youth?

We want to hear from foster alumni in  
Louisiana, Atlanta, North Carolina or South Carolina!

Our research team is conducting a study to gather information about what happens to foster youth who are pregnant or parents. We are looking for current and former foster youth over the age of 18 to participate in interviews. Interviews are confidential, will be online and will take about 45 minutes to an hour. All participants will be provided a \$25 gift card to thank them for their time.

Want to participate? Sign up for an available interview time at:
