

CONGRATULATIONS! You've been selected for Coaching for College Completion (CCC)!

Think about it...Successful athletes have sports coaches who support and motivate them, help them stay on track, bring out the best in them, and identify obstacles early on to overcome them. CCC provides students professional life coaches to help them attain their education and life goals.

CCC's coaching has helped hundreds of students like you, create, define and execute a game plan that you create for your education and life.

The coaching sessions will be planned around your school and worklife schedules. The focus is simple: What do you want to achieve, and how can we help you get there!

What will you get?

12 coaching sessions with an executive level life coach and connections to resources.

There is no cost to you.

The project and all offered services are free to you, sponsored by GA RYSE and The Orange Duffel Bag Initiative. When you successfully complete the program, you will receive a \$200 scholarship check.

Next steps?
