THE **TREVOR** PROJECT
Saving Young LGBTQ Lives

Georgia
Families 360 SM
Better Care, Better Futures.

This training is an awareness-building and cultural competency training for adults working with lesbian, gay, bisexual, transgender, queer and questioning (LGBTQ) youth.

This training is intended to educate audiences about the basics of sexual orientation and gender identity, and provides a framework for understanding and supporting multiple or intersecting identities.

Participants learn how they can be an ally to young LGBTQ people and operate in solidarity with the LGBTQ youth community, regardless of their personal identities. The training ends by providing action steps with recommendations for creating safer and supportive environments.
